

## Accelerated Bachelor of Science in Nursing Program Prerequisite Checklist

### Minimum Admission Requirements

- Completion of a bachelor's degree in a non-nursing field from a regionally-accredited institution
- Cumulative college GPA of 3.0 or higher
- A current, unencumbered CNA or LPN license
- Successful completion of prerequisite courses outlined below

Prospective students are encouraged to have their prerequisites evaluated by a Bushnell enrollment advisor prior to applying. Contact [online@bushnell.edu](mailto:online@bushnell.edu).

### Prerequisites: Science Core

*A minimum grade of 3.0 is required for each course in this category. Only one repeated grade will be accepted. Pass/No Pass grades are not accepted for any prerequisite science courses with the exception of courses completed spring semester or winter/spring term(s) 2020.*

Requirement	Semester Credits	Quarter Credits
Biology (one or two courses, depending on school; must include molecular, cellular biology, and genetics)	3	4
Human Anatomy & Physiology series with lab sections (2-part series on a semester calendar or 3-part series on a quarter calendar)	8	12
Microbiology with lab	4	4

### Additional Prerequisites

*A minimum letter grade of B minus is required for each course in this category. Pass/No Pass grades are not accepted for any of these additional prerequisite courses with the exception of courses completed spring semester or winter/spring term(s) 2020.*

Requirement	Semester Credits	Quarter Credits
Nutrition	3	4
Human Growth & Development (or Developmental Psychology)	3	4
Minimum 1 elective course in the physical, biological, or behavioral sciences	3	4

**Total Prerequisite Credit Requirement:** 24 semester credits or 36 quarter credits
