Suicide Prevention

Oregon Suicide Prevention is a resource for professionals and community members who want information and support for suicide prevention. For more information call 503-244-5211 or visit:

Self Care is Essential

In order to be equipped to offer support to those who need it, you must take care of yourself. Practicing self-care or recognizing the need to seek help for yourself can better equip you to deal with crisis and the difficulty of aiding someone with a mental health or substance use challenge.
